Education

Stony Brook University — Stony Brook, NY
Bachelor of Science in Computer Science — Expected May 2029

- Honors College; Computer Science Honors Program.

Northport Senior High School — Northport, NY
Weighted average: 104.02%; Class rank: 4/356 — Sep 2022 - Jun 2026

Experience

ReWild Long Island — Remote
Software Development Intern, AI Team — Aug 2026 - Present

- Developing Sustainable Landcare Hub, a multilingual conversational platform for native-plant guidance, using containerized Gemma models and Hugging Face BGE-M3 embeddings.
- Building Python and TypeScript REST services with Docker on Google Cloud Platform; designing PostgreSQL and pgvector schemas for vector similarity search across partner nonprofit resources.

ReWild Long Island — Remote
Software Development Intern, Full Stack Web Development Team — Sep 2025 - Aug 2026

- Led a small team building a volunteer and intern platform with Node.js, TypeScript, Python, and JWT authentication, supporting validated volunteer hours, event registrations, waitlists, and chapter teams.
- Deployed the frontend to Vercel and migrated the backend from Cloudflare to Google Cloud Platform via REST APIs; automated scheduling, location tracking, and user profile workflows with PowerShell, Git, and PostgreSQL.

Designatronics — Hicksville, NY
Management of Information Systems (MIS) Intern — Jun 2025 - Aug 2025

- Migrated a legacy engineering application using C#, PHP, Java, JavaScript, HTML, and CSS to meet Department of Defense cybersecurity requirements.
- Reverse-engineered and redeployed server infrastructure with Microsoft IIS, MySQL, and PowerShell; supported hardware, network printers, Active Directory, and Windows/Linux systems.

RTX Corporation — Remote
Future Ready Engineer Intern — Jun 2024 - Jul 2024

- Built an AI-driven phishing detection prototype with Python, JavaScript, HTML, and CSS to help protect older adults from email threats.
- Refined interface layouts and streamlined feature delivery to make phishing detection intuitive for older adults.

Projects

Boilerplate | Student Workload Planner — Oct 2026
Next.js, React, TypeScript, Supabase, Gemini

- Won Best Beginner Track at SBUHacks 2026 (300+ participants); built and deployed a student workload planner with a team in 36 hours.
- Combined coursework and calendars into a seven-day workload forecast; used Gemini to suggest study sessions based on assignments and available time, and built a distraction-blocking browser extension.

Technical Skills

Languages: Python, TypeScript, JavaScript, Java, SQL, C#, PHP, HTML/CSS, PowerShell, Bash
Frameworks & Tools: React, Next.js, Node.js, Tailwind CSS, Docker, Git, REST APIs, JWT, Microsoft IIS
Databases & Cloud: PostgreSQL, pgvector, MySQL, Supabase, Google Cloud Platform, Cloudflare, Vercel

Leadership & Awards

Northport Senior High School — 2022 - 2026

- Co-President, Academy of Information Technology (NAFTrack Certified); Co-Captain, Mathletes (Math Madness national championship); Captain, Varsity Boys' Badminton.
- AP Scholar with Distinction (2025, 2026); College Board National Recognition Award (2025).
